

NC Pathways to Grade-Level Reading

High Quality Birth-through-Age-Eight Early Care and Education Design Team

Meeting 3 - October 23, 2017

The NC Pathways to Grade-Level Reading initiative is bringing together diverse leaders working across disciplines, sectors, systems and the political aisle. They are defining and acting upon possibility.

- *What would be possible if we adopted shared, whole child, birth-through-age-eight measures that put children on a pathway to grade-level reading?*
- *What would be possible if we aligned policies and practices that were rooted in how children develop?*
- *What would be possible if we coordinated strategies to support children's optimal development beginning at birth?*
